

Darjeeling  
June 1<sup>st</sup> 1880

My dear Professor Goldzides,

I cannot tell you adequately what pleasure I derived from your most kind letter. You must know that out in India at the present time, matters literary and oriental receive little or no encouragement - and what one achieves is almost in spite of the authorities. When therefore one receives from such a scholar as yourself a few words of encouragement one takes intellectually a new lease of life.

I am exceedingly grateful to you for doing me the honors of proposing my name to your Academy, and to them for so kindly accepting me. I feel I am quite unworthy - but I will at least try to prove myself worthy in the future.

In the course of this month the Hungarian inscription is to be placed on Kóvósi (son's grave; and I am also having a new English Tablet put up, as the present one

Commiss several mistakes. From the window at which I am now writing I can see this great man's grave: and my wife and I make frequent "pilgrimages" to the spot itself.

I forget whether I told you that I am imprinting as a special number of the P.A.S.P. all the articles which Esoma contributed to the early numbers of that Journal.

I hope you will shortly receive the Bangalore Catalogue Arabic Medical Works - which will be of especial interest as it has been prepared by a young pupil of mine who was trained as a ~~physician~~ and the son and grand of hakims. I hope the India Office will have sent you a copy of the first volume of my Arabic History of Gujarat, which has just appeared. If not I will send you one, when the copies reach India.

Again thanking you for  
your kindness

I am  
Yours very sincerely  
E. Leventhal
