Albany, N.Y., June 27, 1906

Professor Ignaz Goldziher

Budapest VII, Holl's-u.4

Hungary, Austria

Dear Sir:

In the matter of the delivery of the volumes sent to the Austrian and Hungarian speakers, I beg to state that we have received a communication from Professor Sauer stating that he has just received Volume I of the Proceedings of the Congress of Arts and Science. This volume was sent in the same package in which yours and the others were sent addressed to Commissioner General von Stibral in care of the Ministry of Commerce.

I hope you have also received your copy and if so would like to be advised; and if you have not you are warranted in writing the Exposition Department of the Ministry of Commerce that the book must be somewhere in their possession, inasmuch as Professor Sauer has received his copy and yours, separately wrapped and addressed to yourself, was contained in the same package.

Yours respectfully

HJR
