Dear Professor Lukács,

Our mutual friend, Dr. Elfie Stock, has interested me in your work, and she has suggested that you might wish to read some of my own theoretical efforts. Accordingly, I am sending you three books which form part of a continuing endeavor.

I am much impressed by the quality of Dr. Stock's versions of your ideas. You are fortunate to have such an able and devoted representative in the United States. With all good wishes.

Sincerely,

Justus Buchler
