

Rome, May 11th, 1971

Dear Professor!

U44136-1173/17

I am an Italian student. I've read your interview about Hegel on "L'Espresso".

I think you are a great man, and above all a great and important people's comrade.

I am communist too but I want to study very much to be a true communist.

You are an example for me and for the world's comrades.

I should be happy to receive a your autograph.

You're (even if ~~you~~ don't know) a force for all the youth in the world, for a true communist world. I justify myself for my stupid words but I don't know English very well and I am not able to write what I think.

Your truly

Demetri Sobise.
