Dear Keli -

The weather is beastly hot in Pest. Makes one limp.
Have you had any rain in your part of the world?
Your best plan is undoubtedly to come to Pest at once.
Living here costs 400 kr. monthly, at least. But you would
gradually get lessons, and would have more chance of
finding a post here than anywhere else. I shall talk to
Countess Kivolyi Tomonon and see what can be done. I don't
understand the Esthazy at all. These things do happen though!
Anyway, I hope to see you here as soon as may be. Hang
the expense! Cheer up and don't be long!

Yours ever

J. E. Thomson.
