Dear Professor Goldziher:--

At a meeting of the American Committee for Lectures on the History of Religions, held in New York on December 27th, I presented your letter of the 28th of November in which you fixed October, 1908, to January, 1909, for your course of lectures under the auspices of the Committee on Islam.

I am instructed by the Committee to communicate to you their pleasure in receiving the announcement of your definite acceptance.

In due course I will communicate further with you regarding the detailed arrangements. In the meantime I shall be glad to have, at any time suiting your convenience, the titles of the six lectures constituting the course.

Very truly yours,
