Hungary.

853 Asylum Ave., Hartford, Conn.,

U.S.A. 26/1/15.

My dear Solzgyher, all good wishes
and greetings for the New Year to
you and yours from us both. Your
post-card came a few days ago & I
had almost despaired of hearing from
you. I was uncertain where you were
and I sent greetings to you through
Snouch. Jackson writes to me that
he is busy revising the translation of
your Vorlesungen and hopes that
it will be published in autumn
at the Yale University Press.

We are in fair health but naturally
very much worn and distressed. It
is hard to settle to any work. My
classes keep me busy but I do little
besides. In October I delivered the
Haskell lectures on the light cast
by Arabic literature on the Old
Testament but they are not yet
written! I spoke from notes. I
have also got a little further in my
"1001 Nights" investigations and that
is about all. You will be interested
I am certain, in my article Hikaya
in the Encyclopaedia when it appears.
I think I have found the origin of a
genre. I have heard from Massigou.
He is well and expects a child in
February. Gauschner, Leo, and Mr.
Heile are well. As to Germany,
my only news is through Snouch.
I am very on now about my
many old pupils in the East -
Urumsa, Van, Maradin, Suzma etc.

both send our affectionate sympathy.
