Dear friend! Many thanks for your interesting article
on Steuerman law, which ~~is~~ ^{is} very informa-
tive for my point of view. For the Globe I wrote
a short review on Albrecht's Grundriss der Osman-
rischen Staatsrechte (1505). I am most asto-
nished that till that moment I received nothing
of the Proceeding of the St. Louis Congress. I
will hope that they did not forget to order some
Separatabzüge of my paper. I do not know
the address of the redactional authority of those
Proceedings to apply myself on them about that
matter. To you, dear Macdonald, I am indebted
for the care you bestowed in correcting and engli-
shing my paper. You gave you much trouble to
save ~~the honour of my English~~ ^{as} ~~my English~~ ^{author}! کتر عزیز!

As to my working, in my leisure hours I was always
occupied the last summer with the examination
of a lot of Arabic Gezeihen-fragments ~~having~~ ^{being} acqui-
red for the library of our academy. In next weeks I
must write work for a biographical (necrological)
paper conscribed to the memory of my friend Count
Szechenyi. For that purpose I must go through all his
writings (a great quantity of theological and historical
articles), I hope then to begin with Hasznos in
July or August. Till now I was not able to
do anything in that direction. March 2nd)
was personally in Strasbourg to take part in the
festivities arranged in the honour of Voltaire.
My compliments to Mr. Macdonald and to yourself
