Dear friend! It was only a ~~glow~~ on my
part to forget to announce you the receipt
of the notes on Education-matters;
they are in my hands. Have you got
in Hartford my article on Muslim Crimi-
nal law (Thomas-collection)? I have no
other copy to dispose of. Now I am
always occupied with Schic-Literatur.
It is interesting for me, that I cannot
find any occasion to change my views on
schiclic matters exposed in various works
since 1874, when my essay on schiclic
literature appeared. But it is necessary
to go through that tedious literature made
accessible in later times by Indian and Persian
lithographies. You will see the traces of these
lectures in my Hastings-contributions. I do
not think, that the Gallard-~~work~~ is fit to
enter in the scheme of the Gibb-publications.
They desire new texts or ~~the~~ translations of un-
known books. Yesterday I put the last "imprimatur"
on my Völkell-essay. Sinc. of ye (will)
