HALLE A. S., DEN

29 Aug 1888

My dear Sir,

In our open field is also growth, but always
in the large with flowers. The main flower comes from
Asia. It is known if you are not yet. It looks
as if it were from Asia. It grows in the fields where
the flowers have been sown, there are also the flowers.
It is a very tall flower. The flowers are
about 10 cm, may the flower stand perfectly
straight from the stem, so that it is
very good. They will be the first, who
are of us the Colours will be blue, yellow
orange and white. It is the first time
that we have seen it.

Fir would stay you, now if you ~~forget~~
say the word. Now we're 15 days off, I know
you already, so we start our grand adventure with help -
We and friends! But helping is for you if my son from
Massachusetts brings? my father's whole wealth, so we're
if only one from father, and it from who he is
the best person I ever met. Then there
was his wife, Mrs. Mall, now fallen asleep. No I don't
want to see him, no I want to help him, now he
will go to help you from his side. In the long
while there will be time to have all things.

and get by

mother
