My dear Sir

Having prepared an account of the proceedings of the 1st section of the Congress at Vienna, so far as they interest my readers, I propose now to give a short account of the proceedings of the other sections.

Will you therefore kindly send me an abstract of what you said in the Arabic section "zur Kenntniss der Almohadenbewegung in Nord-Afrika"?

Please note that my object is to let the Indian scholars know what was done at the Congress, & that it is important that the abstracts be sent in early.

Yours faithfully

R. Temple

Editor.

Dr. F. Goldziher

As there will not be much space available for each abstract would you be kind to make the abstract as brief as possible?
