Dear Comrade Lukacs

Enclosed please find a receipt for your very generous contribution of two thousand dollars to the struggle to save our Angela. You may be sure that this was greatly appreciated. Angela wrote you a letter and this was given to my daughter when she was visiting the "criminal" but guards searched my daughter, found this "contraband" and confiscated it and had to be dissuaded from arresting my Bettina! We will make other attempts to get to you in Angela's own hand her word of greeting and of love.

I expect to be in Budapest in mid-May in connection with the World Peace Assembly; I shall try to pay my respects to you in person and if this does not discommode you too much perhaps I shall have the pleasure of being with you for as much time as you can spare.

With great respect and fraternal greetings,

MTA FIL. INT.
Lukács Arch.
